**Children with Hearing Loss Benefit from SPEAK**  
(Stark Project for Educating Audition in Kids)

SPEAK is an auditory/oral preschool classroom where students with hearing loss learn to listen and talk. SPEAK's mission is to teach children with hearing loss to listen and speak, and to understand when someone is speaking to them.

Because of universal newborn hearing screening, early diagnosis, and advanced hearing technology (such as digital hearing aids and cochlear implants), spoken language is now audible to almost all deaf children.

SPEAK is a highly specialized program provided by Stark County Educational Service Center that allows children to develop listening and speaking skills. Instruction is provided by Sabrina Rittenhouse, a licensed Teacher of the Deaf, and teaching assistant Brittany Heighway. All children receive auditory and speech therapy services from speech language pathologist Tiffany Chaboudy. All staff members have training and experience in Auditory/Oral Education for the Hearing Impaired. With appropriate hearing aids, cochlear implants, and assistive technology systems, children are taught to use their hearing to develop spoken language. To foster oral communication and provide age appropriate language models, hearing classmates are included in each class.

Quota International of Massillon has long been supportive of improving outcomes for children with hearing loss in our community and beyond. Quota continues to consistently support the SPEAK program by providing Hearing Assistance Technology and classroom materials.

**Thank you for joining us as we honor the dedicated staff, parents, and children in the SPEAK program. Your generosity will allow us continue to support children with hearing loss!**
